

ENVIRONMENTAL MANAGEMENT AND HEALTH SERVICES

The Environment and Health Services Unit assisted health of 16 employees, responded to 6 accidents within the zone, and 3 aviation emergencies. EMHS also attended several virtual trainings such as Virtual Orientation on the Covid-19 Vaccination Program, Reiteration on Covid-19 Preparedness Measures for the Anticipated Rainy Season and the 4th Public Convention on Mental Health.

Participation During Coastal Clean-ups.

Ensuring the safety of our employees during Covid-19 pandemic by providing basic essentials like facemasks, vitamins and disinfectants to prevent the spread of virus

Conduct of Inspection of PPFZ Registered Enterprise in Compliance with ECC Conditionalites and other Environmental Laws, Rules and Regulations and Compliance with Occupational Safet and Health Standards

Safeguarding the Health and Welfare of PPMC's Stakeholders

Poro Point Management Corporation (PPMC) through its Occupational Safety and Health Committee, implemented the Policy on the Prevention and Control of COVID-19 in PPMC and in the Poro Point Freeport Zone. The said policy was approved in 2020 at the onset of the global pandemic to safeguard the health and safety of PPMC's stakeholders, Board of Directors, officers and employees. PPMC monitored its various locators inside the PPFZ to ensure their compliance with the aforesaid policy.

PPMC continued to provide vitamins and personal protective equipment to its employees, enforced minimum public health standards and conducted regular disinfection of all offices. Alternative work arrangements were implemented pursuant to legal issuances of the national government and local government units.

1. Health Component

In line with Poro Point Management Corporation's (PPMC) mandate as a socially responsible corporate citizen, PPMC has undertaken programs, initiatives and actions that aimed to mitigate the impact of COVID-19 not only within PPFZ/PPMC, but also on other individuals and organizations outside of it.

Thus, on May 15, 2020, PPMC adopted a Policy on the Prevention and Control of COVID-19 in PPMC and in the PPFZ based on the Interim Guidelines on Workplace Prevention and Control of COVID-19 issued by the Department of Trade and Industry and Department of Labor and Employment. Subsequent amendments to the said policy were made when DTI and DOLE issued a Joint Memorandum Circular No. 20-04-A, Series of 2020 on August 15, 2020.

Last year, PPMC, together with the initiative of the National Task Force (NTF) against COVID-19, Regional IATF, Provincial Government of La Union, City Government of San Fernando, La Union, Philippine Arena Team, Bases Conversion and Development Authority, John Hay Management Corporation and other local government units held two Free COVID-19 RT-PCR Tests that benefited a total of 3,295 beneficiaries under the Aggressive Community Testing (ACT) Program of the government to strengthen the country's capacity in massive covid testing to contain the spread of the virus.

For CY 2021, a series of orientation on COVID-19 prevention and control has been conducted that include importance of vaccination and other health related information. PPMC through its Community Development Officer shared relevant information on the Prevention and Control of COVID-19 in PPMC, in the Poro Point Freeport Zone and PPFZ impacted barangays.

PPMC coordinated with the partner agencies for the conduct of Bloodletting Program. This will be in partnership with the Department of Health- Ilocos Training Regional Medical Center (DOH-ITRMC). The activity has been set for the first quarter of CY 2022.

ENVIRONMENTAL MANAGEMENT AND HEALTH SERVICES
